

MENIFEE Business Spotlight

November Raising Cane's

Todd Graves opened the first Raising Cane's in 1996, which he lovingly named after his Labrador Retriever. The restaurant specializes in hand-battered and cooked-to-order flaky chicken strips with their famous sides including fries, crisp cool coleslaw, and garlic-buttered Texas Toast. Raising Cane's officially called Menifee home in 2018. With robust commercial and residential development, it was easy for the company to recognize the community's enormous potential and opportunity. The community-centric and family-oriented focus of Menifee was a cornerstone in their decision.

January Bushfire Kitchen

Bushfire offers redefined American comfort food classics that never use preservatives, food coloring, flavor enhancers, or GMOs. Ensuring the best experience for their guests, almost everything is made from scratch, the ingredients used are locally produced when possible, and the meat is raised humanely while being antibiotic-free. Additionally, it was important to the Barwin cousins that their menu be inclusive and accommodate for vegan, vegetarian, and gluten-free preferences.
